

1. ENVIRONMENTAL PROTECTION POLICY

Vision

In Slovenian Istria Rooms & Apartments are still aware that each of us has an impact on the environment, so we work in accordance with the principles of sustainable tourism, and we try to reduce the environmental impacts arising from tourism activities and contribute positively to solving the environmental issues of sustainable tourism. We are convinced that sustainable tourism is responsible tourism; one that respects the needs of the environment and the people who live there, as well as the local economy and visitors.

Objectives. Through our environmental protection policy, we will continue to:

- Ensure compliance with all applicable environmental laws and regulations,
- Identify the consequences of measures relating to the protection of the environment in order to achieve our goals towards better environmental performance and to ensure that we regularly review our progress in this endeavor,
- ensure that all employees are adequately informed and educated about environmental performance measures and that their role in achieving common goals is crucial,
- We continued our efforts to invite our guests to support our efforts to reduce the environmental impact by their actions.

Actions. In order to achieve our environmental goals in 2021, we will:

- maintain the Travelife Certificate for Hotels & Accomodations,
- reduce energy consumption compared to 2020 with the continued installation of economical light leds when replacing,
- when buying new appliances, bought energy-saving products and compared the products with each other in order to choose the optimum one,
- reduce water consumption compared to 2020 with a review of perlators that reduce the flow of water,
- when buying new casks, we will only buy those that allow regulating water consumption,
- continue to reduce waste by strictly separating all waste, such as glass, paper, plastic, bio-waste and identifying the opportunities for re-use or recycling of these materials,
- reduce the use of potentially harmful chemicals in cleaning and increase the use of biodegradable cleansers or a natural alternative (vinegar&soda),
- preserving the breeding areas of endangered species located near the accommodation and encouraging our guests to protect and respect these areas.
